John Christian A. Rodrigo, BSMT, RMT, ASCPi

Medical Laboratory Scientist — Histopathology | Microbiology | Blood Bank
MSCNZ Provisionally Registered | Eligible for AEWV Employer-Sponsored Visa
Quezon City, Philippines | Open to relocation within New Zealand
📧 johnchristian.rodrigo@yahoo.com | 🔗 LinkedIn

PROFESSIONAL SUMMARY

Medical Laboratory Scientist (ASCPi) with over 18 years of experience across histopathology, microbiology, blood bank, hematology, and clinical chemistry within hospital and ISO-accredited laboratories in Singapore and the Philippines. Strong hands-on expertise in microtomy, routine H&E staining, antimicrobial susceptibility testing, transfusion science, and quality management systems under ISO 15189. Proven experience in method validation, QC monitoring, and laboratory workflow optimization. MSCNZ Provisionally Registered and open to Scientist opportunities within New Zealand laboratories.

CORE COMPETENCIES

- **Histopathology (embedding, tissue processing, microtomy, H&E staining)**
- **Clinical Microbiology & AST (culture workups, ID, disk diffusion/MIC)**
- **Blood Bank & Transfusion Science (ABO/Rh, type & screen, crossmatch, antibody screen/ID)**
- **Hematology & Coagulation • Clinical Chemistry (IQC/EQA analysis)**
- **ISO 15189 Quality Management Systems**
- **SOP development • CAPA implementation • Method validation**
- **Laboratory Information Systems (LIS)**
- **Equipment maintenance & calibration**
- **BSL-2 laboratory safety compliance**
- **Staff supervision & training**
- **Workflow optimization & TAT improvement**

PROFESSIONAL EXPERIENCE

Clinical Strategy & Content Advisor

ValuLife Healthcare Systems (Contract) **Jan 2026 – Present**

- Provide advisory support on quality control education and laboratory workflow optimization initiatives.
- Contribute to development of structured diagnostic and QC learning materials aligned with laboratory best practices.

Chemist / Executive Clinical Laboratory Technologist

Setsco Services Pte Ltd, Singapore **May 2015 – Jul 2025**

- Performed analytical testing under ISO 17025 and ISO 15189 frameworks.
- Supported method validation, calibration, instrument maintenance, and internal QC systems.
- Monitored compliance with quality standards and laboratory accreditation requirements.
- Mentored junior staff and coordinated workflow to maintain turnaround time and analytical accuracy.

Chief Medical Technologist

JAR Mednet Diagnostic Centre, Manila **Dec 2013 – May 2015**

- Supervised blood bank, hematology, chemistry, and microbiology sections.
- Implemented daily IQC/EQA reviews and new QC dashboards reducing variance.
- Oversaw staff scheduling, inventory, and preventive maintenance programs.

Senior Medical Technologist

Hi-Precision Diagnostics, Quezon City **Jul 2011 – Dec 2013**

- Performed embedding, microtomy, and routine H&E staining.
- Conducted culture identification and antimicrobial susceptibility testing.
- Contributed to SOP updates and workflow optimization initiatives.

Medical Technologist (Blood Bank & Core Lab)

University of Santo Tomas Hospital, Manila **Jun 2007 – Jun 2011**

- Performed routine and STAT transfusion testing (type & screen, crossmatch).
- Maintained QC documentation and ensured adherence to hospital biosafety protocols.
- Supported multidisciplinary hospital laboratory operations.

EDUCATION

B.S. Medical Technology — University of Santo Tomas, Manila (2006)

CERTIFICATIONS

- **Medical Laboratory Scientist (ASCPi)** — Active
- **ISO 15189 Internal Auditor Training** — Completed

REGISTRATION & WORK ELIGIBILITY

- **MSCNZ Provisionally Registered**
- **Eligible for AEWV employer-sponsored visa**
- **Available immediately upon visa approval**
- **Open to relocation within New Zealand**
